

My First Impressions After Coming to Hosei University

TURANIN Ianislav

My first days at Hosei University have been amazing. Right from the start, the buddy system made everything so much easier. Friendly Hosei students met us at the airport and helped us get to the dormitory, which was a huge relief.

The dormitory itself is great. The staff are super hospitable and respectful, which made me feel right at home. Their kindness and help have been essential in getting settled quickly.

Adjusting to life here has been really smooth, thanks to the well-organized orientation process. The professors are not only intelligent, but also very approachable and supportive, making the whole academic side of things a lot easier.

We arrived just before Golden Week, a series of national holidays in Japan. This gave us plenty of time to explore Tokyo and hang out with new friends, which was an awesome way to start our time here.

Hosei offers a wide range of classes to choose from, and the online registration system is really straightforward and easy to use. It didn't take long at all to sign up for the courses we wanted.

Tokyo and Hosei University have been incredible so far. They feel like more than just a place to study or visit; they feel like a community and a family. This sense of belonging has made my first impressions here extremely positive and memorable.
