

A Journey To Remember

Giulia D'Oria

Going to **Japan** was **my first time travelling so far from home**. But most importantly, it was my first experience **living alone in a country** with a language and a culture **completely different** from what I'm used to.

Never Alone

Initially, it was challenging adjusting to the Japanese lifestyle; however, one thing is sure:

I've never truly felt alone here. Thanks to the continuous support and kindness of the professors, **administrative staff**, and fellow **students** at Hosei, I always knew that I had **someone to rely on**. I will never be grateful enough for what they have done for me. For instance, throughout this semester, I attended several interesting and engaging classes. The **professors** were always available and supportive, and because of them, my language skills have improved a lot, as well as my approach to studying in general and my understanding of Japanese culture. My **newfound friends** are amazing, we have created a lot of memories together, and I promise never to forget them.

Forever Grateful

Before my departure, **I didn't know what to expect**, but now that the semester has concluded, I can say that it has been an **incredible experience** as it has enriched and **changed me**, academically and personally. I have grown a lot. I am more independent and confident now. Japan is a wonderful country, but besides that, **Hosei University** has proven to be an incredible institution to be a part of. I will cherish this experience in my heart forever. **Thank you!**
