法政大学

# Continue to challenge conventions without fear of change

In 1880, Hosei University was founded with the power of youth in an era when the atmosphere aimed at freedom was at its height. Over the three centuries since its foundation, Hosei University has educated human resources in the culture of liberty and progress. Continue to challenge conventions without fear of change – Hosei University pursues continuous innovation instead of complacency as evidenced by its history and traditions.

## Culture of Hosei University **Liberty and Progress**

### Root of the foundation of Hosei University

Tokyo Hogakusha (Tokyo School of Law) was born in 1880, when the penal code and criminal law were promulgated as forerunners of modern Japanese law. The Tokyo School of Law was established by Kanamaru Magane, Ito Osamu, and Satta Masakuni and other young lawyers in response to the trends of the time in Japan that saw a national upsurge in the movement for individual freedoms and ongoing development of the modern legal system. The school had both Kohokyoku, where lectures on law were given, and Daigenkyoku, where on-the-job training for lawyers was given. This shows that the spirit of on-the-job training and career education was present at the foundation of the school and has been its legacy to date.

**KANAMARU Magane**  
1852–1909

**ITO Osamu**  
1855–1920

**SATTA Masakuni**  
1856–1897

### Wise men established the basis of our tradition and culture

established the foundation for modern Japanese law

**Gustave Emile BOISSONADE**  
1825–1910

Dr. Boissonade came to Japan from France as a legal advisor to the government of Japan. He became the director of the Tokyo School of Law in 1883 and laid the groundwork for the school by volunteering to teach students for ten years. The basic philosophy of modern law, similar to that of French natural law, was thus established by Dr. Boissonade, who formed the foundation for Hosei's culture of liberty and progress.

father of Japanese civil law

**UME Kenjiro**  
1860–1910

Dr. Ume Kenjiro, called the “father of civil law” in Japan, became the first president of Hosei in 1903. Dr. Ume promoted multi-faceted educational reforms from a global perspective, including the establishment of the Department of Expedited Law Training for Chinese students and the Department of Language Studies for language training in English, German, and French. This spirit of an open education has also been its legacy.

### Dramatic development in the post-WWII period

After Ouchi Hyoe became the president in 1950, he reconstructed the school buildings that were destroyed in World War II. He constructed '53 Building (present Boissonade Tower), '55 Building, and '58 Building, and made substantial contributions to the dramatic development of Hosei University in the post-WWII period. Some policies of Ouchi in this support development period have been inherited, including *develop independent and free human resources* (signifying freedom in the Hosei culture) and *develop useful talents who take a concrete step, no matter how small, for improving and enhancing the social life of Japanese people, instead of asserting vain theories* (signifying progress in the Hosei culture).

**OUCHI Hyoe**  
1888–1980

A quotation from the Analects of Confucius, written by the former President Ouchi Hyoe, hangs over the front entrance of Ouchiyama Building: “Learning without thought is labor lost; thought without learning is perilous” (Volume 1, Book II, *Wei Chang*).

- 1880** Tokyo Hogakusha (Kohokyoku and Daigenkyoku) was founded by the non-governmental lawyers Kanamaru Magane and Ito Osamu in Surugadai, Tokyo.
- 1881** Kohokyoku spun off from Tokyo Hogakusha and became the Tokyo School of Law headed by Satta Masakuni.
- 1883** Dr. Boissonade, a professor (agregé) at the University of Paris, was invited as a legal advisor to the government of Japan and became the director of the Tokyo School of Law.
- 1886** Tokyo Futsu Gakko (Tokyo School of French Studies) was established by Futsugakkai (later Societe Franco-Japonaise).
- 1889** The Tokyo School of Law merged with the Tokyo School of French Studies and became Wafutsu Horitsu Gakko (Tokyo School of Japanese and French Law). Dr. MITSUKURI Rinsho became the principal who advocated an academic culture based on freedom and innovation.
- 1903** Pursuant to the Vocational School Order, the Tokyo School of Japanese and French Law was renamed the Tokyo School of Japanese and French Law, Hosei University. Preliminary courses, undergraduate faculties, specialized courses, and graduate schools were established. Dr. Ume Kenjiro became the first president.
- 1915** The baseball team was established. The team joined the Big 4 Baseball League in 1917. The Tokyo Big 6 Baseball League was founded in 1925. The Hosei University Baseball Team won the Tokyo Big 6 Baseball League championship for the first time in the fall of 1930 and has since contributed to Japanese baseball as a prestigious team.
- 1920** Pursuant to the University Order, the establishment of private universities was authorized for the first time. The Tokyo School of Japanese and French Law, Hosei University, became Hosei University. The Faculty of Law and the Faculty of Economics were established. Hosei became one of the largest private universities in Japan with preliminary courses, specialized courses, and the Graduate Schools of Law and Economics.
- 1921** Hosei University moved to a new school building at 4-chome, Fujimicho, Kojimachi Ward (the present Ichigaya Campus).
- 1922** The Department of Letters and the Department of Philosophy were established in the Faculty of Law, and the name was changed to the Faculty of Law and Letters.
- 1944** Hosei University Aviation Industry Technical School was founded, the predecessor to the Faculty of Engineering.
- 1947** The Faculty of Law and Letters separated into the Faculty of Law and the Faculty of Letters. With the Faculty of Economics, Hosei University now had three faculties. Correspondence education started in July.
- 1949** In line with the School Education Law, Hosei University reorganized under the new university system.
- 1950** Ouchi Hyoe became the president. The Faculty of Engineering was established.
- 1951** Pursuant to the Private School Law, Hosei University became a legally recognized private university. Graduate schools were established under the new system.
- 1952** The Faculty of Social Sciences was established.
- 1959** The Faculty of Business Administration was established.
- 1962** The Hosei University scholarship system was established.
- 1964** Koganei Campus was completed, and the Faculty of Engineering moved to the new campus.
- 1977** The International Center (now the Global Education Center) was established.
- 1979** The scholarship study abroad system (now the dispatched study abroad system) started.
- 1980** Hosei University celebrated its 100th anniversary.
- 1984** Tama Campus was completed. Classes started for first-year students in the First Division, Faculty of Economics, and the First Division, Faculty of Social Sciences.
- 1992** '92 Building (Graduate School Building) was completed.
- 1999** The Faculty of Intercultural Communication and the Faculty of Humanity and Environment were established.
- 2000** The Faculty of Social Policy and Administration and the Faculty of Computer and Information Sciences were established. Boissonade Tower was completed on the Ichigaya Campus. Hosei University celebrated its 120th anniversary.
- 2003** The Faculty of Life-long Learning and Career Studies was established.
- 2007** The Faculty of Engineering and Design was established. Sotobori Building was completed.
- 2008** The Faculty of Science and Engineering, the Faculty of Bioscience and Applied Chemistry, and the Faculty of Global and Interdisciplinary Studies (GIS) were established.
- 2009** The Faculty of Sports and Health Studies was established.
- 2016** The Fujimi Gate was completed.
- 2019** Ouchiyama Building was completed.
- 2020** HOSEI Museum was completed at Ichigaya campus. HOSEI University has been established for 140 years.

## Hosei College Song

Words by Haruo Sato, music by Hidemaro Konoe

- 一、若きわれらが命のかぎり  
ここに捧げて (ああ) 愛する母校  
見はるかす窓 (の) 富士が峰の雪  
蜚集めむ門の外濠  
よき師よき友つどひ結べり  
法政 おお わが母校  
法政 おお わが母校
- 二、若きわれらが命のかぎり  
ここに捧げて (ああ) 愛する母校  
われひと共にみとめたらずや  
進取の気象質実の風  
青年日本の代表者  
法政 おお わが母校  
法政 おお わが母校

## School colors

Hosei University's school colors are orange and deep blue (Hosei blue). According to an old cheering song, orange and Hosei blue respectively represent the sun at dawn and the blue sky. Hosei blue is a bluish purple, deeper than purple.

## Logo

This logo was determined in 2013. The "H" symbolically expresses the energetic roles of Hosei University in various fields. The design shows Hosei's power to continuously challenge conventions, the possibility and flexibility achieved through such challenges, and the resulting expansion.

## School badge

The present school badge was determined in 1930, conceptualized by Professor YAMAZAKI Seitaro of the preliminary courses (he was also a researcher and critic of Nogaku under the pseudonym Gakudo). The kanji characters "大" and "学" are designed into a young tortoise, symbolizing long tradition and permanent truth.

# List of Undergraduate Faculties and Graduate Schools

## ++ Undergraduate Faculties

Faculty	Department	Degree	Campus Location
Faculty of Law	Department of Law	Bachelor of Arts (Law)	Ichigaya
	Department of Politics	Bachelor of Arts (Politics)	
	Department of Global Politics	Bachelor of Arts (Global Politics)	
Faculty of Letters	Department of Philosophy	Bachelor of Arts (Philosophy)	Ichigaya
	Department of Japanese	Bachelor of Arts (Japanese Language and Literature)	
	Department of English	Bachelor of Arts (English)	
	Department of History	Bachelor of Arts (History)	
	Department of Geography	Bachelor of Arts (Geography)	
Faculty of Business Administration	Department of Business Administration	Bachelor of Arts (Business Administration)	Ichigaya
	Department of Business Strategy		
	Department of Markets and Management		
Faculty of Intercultural Communication	Department of Intercultural Communication	Bachelor of Arts (Intercultural Communication)	Ichigaya

		Master of Business Administration in Management Information		
		Master of Business Administration in Accounting		

# Research Institutes

## Advanced special research and study institutes have made numerous achievements

Hosei University has affiliated research institutes in a variety of different fields, and those institutes have made numerous achievements. The achievements in research and study activities at those institutes are presented at academic conferences, symposiums and lectures, or published as reports.

### Ohara Institute for Social Research

The Ohara Institute for Social Research, founded in 1919, is one of the oldest research institutes in the fields of social science in Japan. The Institute took its name from its founder, Magosaburo OHARA, a business magnate from Kurashiki, Okayama Prefecture. In 1949, the institute became affiliated with Hosei University. <https://oisr-org.ws.hosei.ac.jp/english/>

### The Research Center for Computing and Multimedia Studies

The Research Center for Computing and Multimedia Studies promotes the advancement of education and research in the field of multimedia infrastructure, while seeking new ways to harness information technology. To that end it conducts research and development on large-scale information systems and multimedia educational systems, and supports planning, design, and implementation of multimedia-based educational programs and related functions. <https://www.hosei.ac.jp/media/> (Japanese pages only)

### Sports Research Center

The Center, which was established to promote sports, explores new research areas, such as integration of gymnastics and sports, health science, and welfare engineering. A training room has been opened at the gymnasiums in the Ichigaya, Tama, and Koganei campuses. The center holds extension classes and lectures as an initiative to promote sports. <https://www.hosei.ac.jp/rpes/> (Japanese pages only)

### The Nogami Memorial Noh Theater Research Institute

The Nogami Memorial Noh Theater Research Institute was established in April 1952 to commemorate the achievements of former Hosei University President Dr. NOGAMI Toyochiro, who was a student of NATSUME Soseki and a scholar of English Literature, developed new aspects of research into Noh theater. The Institute puts much efforts into researching and collecting materials related to Noh theater, mainly in the form of old documents found all over Japan. Since the Institute was established, it has collected over 40,000 items, including rare and extremely valuable manuscripts dating from the Muromachi and the Edo eras. [http://nohken.ws.hosei.ac.jp/index\\_en.html](http://nohken.ws.hosei.ac.jp/index_en.html)

### Institute of Comparative Economic Studies

The Japanese economy has recently experienced a rapid "internationalization" in various aspects and a number of problems have occurred as a result. The Institute of Comparative Economic Studies was established in order to investigate these problems from an international point of view. The main survey fields of the Institute are international economic relations, especially between Japan and east/south-east Asian countries, as well as between Japan and other industrialized nations. <https://www.hosei.ac.jp/ices/> (Japanese pages only)

### Center for Regional Research

Recently, communities have been urged to increase their independence and autonomy. The objectives of the Center for Regional Research are not only regional research and education, but also the provision and dissemination of the knowledge and information that Hosei University has accumulated. Therefore, the Center functions as an interface that facilitates communication between Hosei University and municipalities, businesses, local communities, NPOs, NGOs, and governmental organizations.

### Research Center for Micro-Nano Technology

Nanotechnology is one of the new technologies that have shown possibilities to overcome the limits of conventional technologies. Many research centers around the world have been actively engaged in the development of nanotechnology. [https://www.hosei.ac.jp/nano\\_e/](https://www.hosei.ac.jp/nano_e/)

### Laboratory of Regional Design with Ecology

The purpose of our research center is to study methods for true "revitalization of cities and regions" to open up the era of the environment. In particular, we set our sights on regeneration of waterfront spaces, unfortunately labeled as a negative legacy of the 20th century; despite their long history of fostering rich environments, we regard them as an important pillar for urban and regional planning in the 21st century. <http://eco-history.ws.hosei.ac.jp/> (Japanese pages only)

### Institute for Sustainability Research

This institute was inaugurated as a corporate establishment in 2013. For research tasks, of the research areas covered by the Institute of Sustainability Research and Education, which was open from August 2009 to March 2013, the institute will take over research and projects related to the field of environmental sustainability.

### Research Center of Ion Beam Technology

Research Center of Ion Beam Technology was established in 1980 to commemorate the centenary of Hosei University. This Institute has been working on surface characterization, modification and synthesis of solid state materials such as semiconductor and novel materials using several million electron-volt protons, alpha particles and other atomic ion beam. [https://www.hosei.ac.jp/ionbeam\\_e/](https://www.hosei.ac.jp/ionbeam_e/)

### Institute of Okinawan Studies

This Institute was established in 1972 to do comparative research on the culture, history and linguistics of not only the Ryukyu islands, centered on Okinawa, but also of surrounding areas such as China, Southeast Asia and Korea. Now that the Institute of Okinawan studies has expanded into a world-wide concern, the Institute is playing a central role in proving and exchanging information among the researchers within and outside Japan. <https://www.hosei.ac.jp/okiken/> (Japanese pages only)

### Boissonade Institute of Modern Law and Politics

This Institute was established in 1977 in memory of Dr. Gustave Boissonade, who is known as the father of modern law in Japan and who contributed much to Hosei University during its formative period. The Institute has two principal objects. One is to collect and research materials concerning Boissonade that would otherwise be scattered and forgotten. The other is to make an interdisciplinary approach to several complicated legal phenomena in modern society that could no longer be analyzed with conventional legal approaches. <https://www.hosei.ac.jp/gendai-hou/> (Japanese pages only)

### Japan Statistics Research Institute

This Institute was founded in 1946 with former Hosei University president Dr. OUCHI Hyoe as its head. It is now located at Tama Campus and is known as an unique research institute in Japan with outstanding achievements in many fields. Its main task is research activity on statistical systems and policies of foreign and domestic governments and organizations, on the theory of statistics, and on regional statistics. Research is carried out mainly by the academic staff of Hosei University in cooperation with specialists from outside including the governmental staff. [https://www.hosei.ac.jp/toukei\\_e/](https://www.hosei.ac.jp/toukei_e/)

### The Research Institute for Innovation Management

The predecessor of the Research Institute for Innovation Management was the Center for Business and Industrial Research, established in 1986. The former Center was modeled after Harvard University's Baker Library, and as the first deposit library in Japan accepted literature relating to economics and business management. <http://riim.ws.hosei.ac.jp/english.html>

### Research Center for International Japanese Studies

This Center is a base for the "Declaration of International Japan Studies" of the 21st Century Center of Excellence (COE) program that was adopted by the Ministry of Education, Culture, Sports, Science, and Technology in fiscal year 2002. Under the basic concepts of "Japan Studies as a cross-cultural study" and "Japanese culture's internationality" the Center conducts international research, as well as providing information making full use of modern IT methods. As an educational program, the Center operates the International Japanology Research Center. <https://hijas.hosei.ac.jp/en/>

# Research Activities

At present, over 200 professors and instructors from a number of different countries can be counted among the teaching faculty. Each year, there are approximately 30-40 visiting professors and researchers whose duration of stay lasts 2 months to a year.

## HIF Foreign Scholars Fellowship

Invitations are extended to young scholars from abroad, who are at the very minimum enrolled in a doctoral program, to apply to the HIF Fellowship Program to carry out non-degree research programs at Hosei University under the direction of and/or in cooperation with Hosei faculty and researchers. Research areas include those studies in the humanities, social or natural sciences, or engineering, as deemed acceptable by Hosei.

Some scholars are invited for 6 months each year according to the terms of the program. The grantees receive a monthly stipend and all/part of economy class transportation expenses for travel to and from Japan. The HIF fellow also will be provided with shared office space, a PC, and a Hosei University network ID.

# International Students

The acceptance of international students goes back to the Meiji Era (1868-1912) with the arrival of the first students from China during the Ching Dynasty. Hosei University takes pride in its long history of matriculating and graduating exceptional international students. Currently over 1,000 international students from around the world are enrolled at Hosei University.

These international students can be classified into three groups: 1) regular degree candidate students who have passed the Special Entrance Examination for International Students and 2) short-term exchange students who are enrolled for 6 months to one year. 3) Japanese language program students. In general, short-term exchange students are sponsored by overseas universities that have mutual exchange agreements with Hosei University, but some privately sponsored students can also be accepted.

## International Students Data (as of May 2022)

### Undergraduate Schools

#### Number of Students/Country

Others: UK, Myanmar, Uzbekistan, Russia, Mexico, Cote d'Ivoire, Rwanda, UAE, France, Spain, Italy, Singapore, Switzerland, Czech, Bangladesh, Malawi, Lithuania

#### Number of International Regular Students and Exchange Students

#### Number of International Students/Faculty

#### Number of Undergraduate Students and Graduate Students

### Graduate Schools

#### Number of Students/Country

Others: Uzbekistan, Egypt, Czech Republic, Nepal, Algeria, Jamaica, Russia, France, Italy

#### Number of International Students/Major

## Degree-seeking International Students

- Special Examination (Undergraduates)—October-December (As of Academic Year 2022)
- Enrollment—April
- Spring Term—April-July
- Fall Term—September-January

# Overseas Partner Universities

To date, Hosei University has concluded general academic agreements and student exchange agreements with 265 universities and institutions in 48 countries and regions around the world (as of February 1, 2023). The global network links Hosei University with the world and continues to expand.

- Schools with general academic agreements
- Schools with researcher exchange
- Schools with student exchange and study abroad agreements

# Top Global University Project

Hosei University was selected to be part of the Top Global University Project by the Ministry of Education, Culture, Sports, Science and Technology. However, globalization is not the objective of our education program. Hosei University aims to help students develop practical skills to resolve the various issues that interfere with liberty and progress in the world by learning and leveraging global skills through multicultural symbiosis and viewpoints for understanding others.

## Five goals of international education

<h3>1</h3> <p>Educate leaders able to survive in any part of the world</p>	<h3>2</h3> <p>Gather human resources capable of formulating a sustainable society and strengthen their presence on the world stage</p>	<h3>3</h3> <p>Support secondary education to establish the basis for a sustainable global society</p>	<h3>4</h3> <p>Help working people continue their education for contributing to the establishment of a sustainable global society</p>	<h3>5</h3> <p>Establish a system that promotes and helps rapid response to and decision-making based on changes in the global society</p>
--	--	---	--	---

To attain these goals, diverse educational programs are provided

<b>Students can acquire skills that can be globally leveraged while studying in Extracurricular Problem – solving fieldwork activity</b>	<b>Increased opportunities for studying abroad</b>	<b>Further globalization of campuses</b>
<p><b>Key initiatives</b></p> <ul style="list-style-type: none"> <li>• The number of classes not conducted in Japanese has increased to 10% at the entire university</li> <li>• Programs have opened in which students can study and graduate using English only</li> <li>• High language proficiency is developed through English Reinforcement Programs (ERPs) and enhanced specialized and related subjects taught in English</li> <li>• A subject group looking toward a sustainable society has been established to motivate students who can contribute to a sustainable society</li> <li>• Problem-solving classes opened for international students to study and work in the field together with Japanese students</li> </ul>	<p><b>Key initiatives</b></p> <ul style="list-style-type: none"> <li>• Credit courses have been enhanced and include the a cross-the-board dispatch student program and individual faculty study abroad programs</li> <li>• Overseas partner schools will increase from 194 to 250 universities/institutions</li> <li>• International volunteer and internship programs have been enhanced</li> </ul>	<p><b>Key initiatives</b></p> <ul style="list-style-type: none"> <li>• Attract 3,000 international students through diversified entrance exam systems and new degree courses offered in English only</li> <li>• Enhance international student dormitories and other facilities</li> <li>• Reform entrance exam systems for advanced globalization, including an entrance exam based on the International Baccalaureate Program</li> </ul>

## Specific visions for international education

In order to actually develop leaders who can survive in any part of the world, as well as global leaders with a well cultivated personalities, Hosei University has specified and promoted the following numerical targets.

<p>Participation in global activities</p> <h2 style="color: #0070C0;">100%</h2>	<p>Study abroad with credits</p> <h2 style="color: #0070C0;">1,500 students</h2>	<p>Share of CEFR B1 (equivalent to TOEFL® ITP 500)</p> <h2 style="color: #0070C0;">48.1%</h2>	<p>Degree courses using English only</p> <h2 style="color: #0070C0;">7</h2>	<p>Collaborative high schools (in Japan and overseas)</p> <h2 style="color: #0070C0;">110</h2>	<p>Recurrent programs</p> <h2 style="color: #0070C0;">1,200 students</h2>	<p>Share of international faculty members</p> <h2 style="color: #0070C0;">60%</h2>
---	--	---	---	--	---	--

## What is the Top Global Universities project?

This project promoted by the Ministry of Education, Culture, Sports, Science and Technology to provide intensive support to universities that promote fundamental internationalization and internal reforms for stronger international competitiveness in higher education in Japan. Selected universities include prestigious schools that undertake the world highest level of research and education and schools that lead internationalization through innovative

attempts.

Hosei University seeks to help students develop practical skills and leadership competencies that can be leveraged globally so that students can maximize, in a global society, the skills accumulated through our interesting programs under the project concept of “Create a global university that conceptualizes a sustainable society led by Japan as an advanced problem-solving country.”

# International Programs

## Developing global leaders with rich personalities through interesting programs

Hosei University was selected for the Project for Promotion of Global Human Resource Development by the Ministry of Education, Culture, Sports, Science and Technology. This project is operated by the Global Education Center at Hosei, which deploys interesting programs to allow students to gradually upgrade skills from their first year and use such skills in practice, including improvement of language proficiency, understanding of different cultures, and enhancement of global practical skill.

## Example of global human resource development

**Example** Ms. A, Department of Business Strategy, Faculty of Business Administration

I have basic English skills and want to specialize in business strategy while acquiring advanced English proficiency in order to find employment in an international agency.

## English Reinforcement Program (ERP)

This program is for students who have English proficiency of TOEFL® iBT 45 (equivalent to PBT/ITP 450) or higher and are highly motivated to study English. The ERP classes are held on all campuses and can be taken free of charge between other classes. The program allows students to efficiently acquire practical English skills. The classes are taught in English in an interactive style in small groups. Students can acquire the four skills of English (listening, speaking, reading, and writing). The classes that emphasize skill integration allow students to steadily develop effective English proficiency with a balance of all four skills.

### ERP Subjects

- Oral Presentation & Discussion: Intermediate
- Writing & Discussion: Intermediate
- Oral Presentation & Discussion: Higher-Intermediate
- Writing & Discussion: Higher-Intermediate
- Oral Presentation & Discussion: Advanced
- Writing & Discussion: Advanced
- Intensive English

## Global Lounge

The Global Lounge lets students acquire practical language skills on campus through opportunities for daily communication with English Study Advisors and international students. Each of the three campuses has a Global Lounge. The lounge also functions as the receiving office for ERP and international volunteer and internship programs; full-time personnel respond to inquiries and provide consultation services. English Study Advisors wait for students and respond to their requests for ideas on how to advance in English and to learn about foreign cultures.

## International volunteer and internship programs

Students acquire international perspectives and skills by looking at the world in new ways through a variety of different experiences. There are two programs: international volunteers, where students contribute to the local community based on some problem solving projects, and international internships, where students are sent to work at business enterprises and NGOs. These programs help students meet the challenges overseas by learning about different cultures, languages, and working styles.

### International volunteer and internship programs

- International volunteer activities in Vietnam
- On-the-job training at a local company in Vietnam
- On-the-job training in a project to support farmers in the Philippines
- On-the-job training at a company, municipality and NPO in Romania
- On-the-job training at a Japanese corporation in Malaysia
- On-the-job training in Japanese language and culture education at a U.S. university

## Japanese Language Program (JLP)

Hosei university has accepted students from overseas for many decades to develop the university's international activities.

For a more sustainable globalization, we mainly deliver JLP for the followings:

- Exchange Students from Overseas Program (ESOP) students
- English-based Degree Program students; GBP, SCOPE, and IGESS

JLP also, as one of its objectives, focuses on attaining Japanese proficiency required for both undergraduate and graduate programs, as well as business in future careers.

Our educational goal is to develop internationally competent students capable of communicating in Japanese and contributing to a global society.

We open our doors to foreign students who are eager to learn Japanese language and culture at a university in Tokyo.

# HOSEI UNIVERSITY ESOP

## Exchange Students from Overseas Program (ESOP)

The HOSEI University Exchange Students from Overseas Program (ESOP) is an independent academic program administered under HOSEI University International Office. Although ESOP is independent of HOSEI University's regular faculty system, both professors and students from the regular faculties teach and study in ESOP sponsored classes, and ESOP is an integral component in HOSEI University's international cooperation efforts. ESOP was established in 1997 in order to provide meaningful academic opportunities to exchange students, from our overseas partner institutions as well as individual applicants, who wish to experience the reality of modern Japan.

## Curriculum

ESOP courses are for exchange students to learn about Japanese society from various perspectives.

### Curriculum

## Variety of support

Hosei University Global Education Center provides various types of support in the following areas to help exchange students make the most out of their time in Japan.

### Type of support

<b>HUBs (Hosei University Buddy system)</b>	Hosei students and office support airport pick-up service, opening of bank account, procedures at ward office, National Health Insurance, student wellness, teaching their native languages to each other etc.
<b>Japanese cultural experience</b>	Provide opportunities to communicate with Japanese students and many chances to participate in the events so that students can experience Japanese culture.
<b>Health care</b>	Clinic and counseling support on campus, Introduction of hospitals offering English services, attendance to a clinic.
<b>Scholarships</b>	Hosei University gives financial support for the dormitory housing expenses as a scholarship. Availability changes every year.

# Hosei University English-based Degree Programs

Since 2008, when Hosei University established the Faculty of Global and Interdisciplinary Studies (GIS), offering bachelor degrees in the liberal arts taught completely through the medium of English, the university has been at the forefront of global education. Now, to increase the number of students we are able to accept from overseas, Hosei University is taking the initiative and expanding its English-based degree programs as follows:

**Global Business Program (GBP) from September 2016**

**Sustainability Co-Creation Programme (SCOPE) from September 2016**

**Institute for Global Economics and Social Sciences (IGESS) from September 2018**

**Global MBA Program from September 2015**

**Institute of Integrated Science and Technology (IIST) from September 2016**

## Undergraduate

### ■ Global and Interdisciplinary Studies (GIS)

GIS students can experience a rich and rewarding interdisciplinary education in the English language. Classes are taught by experienced professors from around the world, whose research covers a range of topics and disciplines. GIS offers a challenging and rewarding academic curriculum to better develop students' global perspectives and critical thinking. In the culturally diverse environment of GIS, students not only grow intellectually, but through participating in a dynamic and interactive setting, learn practical problem-solving skills in a variety of fields.

### ■ Global Business Program (GBP)

The Global Business Program (GBP) is an integrated program as part of the Faculty of Business Administration. Its foundation is based on the objective of developing human resources adaptable for the management of globalized business in the 21st century - often referred to as "The Asian Century". The GBP offers the unique opportunity to obtain in-depth knowledge of Japanese-style business management, which has been fundamental to corporate success throughout the world.

### ■ Sustainability Co-Creation Programme (SCOPE)

Sustainability Co-creation Programme, SCOPE, aims to develop global (global plus local) citizens who can contribute to realizing a more sustainable society in the global environment. Learning how to engage with both global and local points of view allows for the creation of a sustainable society. SCOPE utilizes experiential learning, research, and service activities that are essential for students to implement practical solutions for a sustainable future.

### ■ Institute for Global Economics and Social Sciences (IGESS)

IGESS stands for Institute for Global Economics and Social Sciences based on collaboration among four faculties (Economics, Social Sciences, Social Policy and Administration, and Sports and Health Studies.) IGESS is intended to support the development of globally-minded experts in economics and social sciences toward the formation of a sustainable society. IGESS's educational curriculum is designed for students who are eager to study Global Economics, especially Global Economy, Global Business and Business Communications in English.

## Graduate

### ■ Global MBA Program

The HOSEI Business School of Innovation Management (HBSIM) focuses on strengthening students' understanding of Japanese management and Japanese companies, while equipping them with the basic knowledge and global expertise of a regular MBA program. You gain practical experience in real business environments, including internship experience in regional government organizations and private companies.

### ■ Institute of Integrated Science and Technology (IIST)

IIST was established cooperatively by the Hosei University Graduate School of Computer and Information Sciences and the Graduate School of Science and Engineering for the purpose of conducting cutting-edge research in their specialized scientific fields while setting up cross-major research fields to solve various problems toward a sustainable global society. IIST enables students to acquire practical wisdom necessary to tackle global issues, along with the deeply specialized knowledge in their majors.

# Outgoing Student Exchange Program

## Exchange program

All Hosei students who are enrolled as a second year or third year can apply for the Outgoing Student Exchange Program. Exchange students study at partner institutions for one or two semester(s). There are 69 institutions in 23 countries and regions that have concluded the student exchange agreement with Hosei University. The scholarship of 1,000,000 yen or 700,000 yen will be paid for all exchange students. (The scholarship shall be the half amount if the student's study period is one semester.) The tuition fee of the partner institution will be exempted based on the student exchange agreement. The credits acquired at the partner institutions are recognized as credits required for graduation at Hosei University with a limitation of 30 to 60 credits.

### List of partner institutions

\*Screening examinations held in the spring and fall

\*There are some requirements for the application (GPA, language skills etc.)

\*In 2022, due to the influence of Covid-19, some of the outgoing program were suspended.

### Fee-paying Study Abroad Program

The Fee-paying Study Abroad Program enables undergraduate students of Hosei University, who obtained a letter of acceptance from an overseas institution of their choice (offering a regular 4-year or higher education of a similar level and with the right to award a degree), and applied to the present university, to study abroad at such institution. The period of such program (1 year or 1 semester) will be included in the number of years required for graduation. Further, after returning to Japan, the credits acquired at such institution will be recognized as credits of Hosei University. The scholarship of up to 900,000 yen will be granted for outgoing students.

# Faculty-specific study abroad programs and overseas training programs

**Faculty-specific Study Abroad (SA) programs are incorporated into the curricula at the Faculty of Letters (Department of English), Faculty of Business Administration, Faculty of Intercultural Communication, Faculty of Lifelong Learning and Career Studies, Faculty of the Global and Interdisciplinary Studies (GIS), Faculty of Economics, Faculty of Social Sciences, Faculty of Science and Engineering, and Faculty of Bioscience and Applied Chemistry. Training programs appropriate for the faculty curricula are also available, including the Hosei Oxford Programme (short-term training at the University of Oxford for students of the Department of Global Politics, Faculty of Law) and overseas training in Sweden or other countries with advanced social welfare programs for students of the Faculty of Social Policy and Administration. The Faculty of Social Sciences recognizes credits acquired during short-term study abroad programs during the spring or summer vacation.**

## ■ List of study abroad programs and overseas training programs

Faculty & Program	Scope/eligibility	Participants in 2019	Participating countries (select one)	Period
Faculty of Law Overseas Study Program (OSP)	All students of Global Politics Several students of Law and of Political Science	---	UK, Philippines	Approx. 10 to 15 days in the summer vacation
Faculty of Letters (Department of Philosophy) International Philosophy Special Course	Applicants in the second to fourth years of Philosophy (When applicants exceed the capacity of 20 students, a selection is required)	14	France, Germany	1 week in February
Faculty of Letters (Department of English) SA Program	Applicants in the first to fourth years of English (internal selection is required)	16	Ireland	3 weeks in the summer vacation
	Applicants in the second to fourth years of English (internal selection is required)	4 6		Approx. 3 months in the fall semester Approx. 7 months in the fall semester
	Applicants in the 2nd to 4th years of English (internal selection is required)	1 1	USA	Approx. 4 months in the fall semester Approx. 7 months in the fall semester
Faculty of Business Administration SA Program	Capacity: approx. 30 students (faculty selection is required)	---	English-spoken areas	Approx. 3 to 4 months in the fall semester of the second to fourth years
Faculty of Intercultural Communication SA Program	All faculty students should study abroad (see the footnote* for international students)	245	UK, USA, Australia, Canada, France, Russia, China, Spain, South Korea, Germany	Long-term: approx. 3 to 6 months in the fall semester of the second year
Faculty of Humanity and Environment SA Program	Capacity: approx. 10 students (faculty selection is required)	10	Australia	Approx. 3 months and a half in the fall semester
Faculty of Humanity and Environment Overseas Field Study	Applicants (faculty selection is required)	57	Australia, Southeast Asia, China, Europe, etc. ** Varies by academic year	Approx. 10 to 14 days in the summer or spring vacation
Faculty of Lifelong Learning and Career Studies SA Program	Capacity: 10 students faculty selection is required)	10 Each	Vietnam, Taiwan	2 weeks in the summer vacation
Faculty of Global and Interdisciplinary Studies (GIS) Overseas Academic Study Program	All applicants (requirements of the participating organization should be satisfied)	8	USA, Canada, UK	4 to 5 months
		---	New Zealand	4 or 10 months
Faculty of Economics SA Program	Capacity: approx. 60 to 100 students (faculty selection is required)	45	USA, UK, Australia, Canada * Varies by academic year	Approx. 4 months in the spring semester of the second year
Faculty of Social Sciences SA Program	Applicants (faculty selection is required)	22	USA, Canada, China	Half-term: 2 to 5 months in the fall semester in the second or third year Long-term: approx. 8 months in the third year (Canada only)
Faculty of Social Sciences Short-term Study Abroad Program	Students who are enrolled for Elementary German A/B or for Elementary French A/B	---	Germany, France	Spring vacation in 1st to 3rd year Summer vacation in the 2nd to 4th years
Faculty of Social Policy and Administration Overseas Training System	Faculty: 30 students (faculty selection is required)	30	Sweden	Approx. 8 days in the summer vacation in the second year
Faculty of Sports and Health Studies Overseas Extracurricular Training	Capacity: 22 students (faculty selection is required)	18	USA	2 weeks in the summer vacation in the second or third year
Faculty of Science and Engineering Study Abroad Program	Capacity: approx. 30 students	---	USA	4 weeks in the summer vacation
	Capacity: approx. 25 students	8	Ireland	4 weeks in the spring vacation
Faculty of Bioscience and Applied Chemistry Study Abroad Program	Capacity: approx. 30 students	---	USA	4 weeks in the summer vacation
	Capacity: approx. 15 students	6	Ireland	4 weeks in the spring vacation

\* Students in the Faculty of Intercultural Communication who are admitted through an entrance exam for international students should participate in the Study Japan (SJ) Program instead of the SA Program.

\*\*Faculty-specific study abroad systems and overseas training systems have respective scholarship systems (except the Short-term Study Abroad Program, Faculty of Social Sciences).

\*\*\*In 2020 and 2021, all programs were canceled due to covid-19 and some programs were implemented online.

# Tuition and fees

## Tuition and fees for FY 2023 (Undergraduate Faculties)

Faculty	Year	Admission fee (yen)	Annual tuition (yen)	Annual experiment and exercise fees (yen)	Annual education enhancement fee (yen)	Annual total (yen)
Law, Letters (Philosophy, Japanese, English, History), Economics, Social Sciences, Business Administration, Humanity and Environment, Social Policy and Administration (Community Development)	1st	240,000	831,000	-	228,000	1,299,000
