■Events for International Students

Exchange students started arriving from overseas as in-person classes resumed on Ichigaya campus. A total of 61 exchange students from 16 countries/regions are expected to be enrolled, including some who attend classes online, and 52 students have arrived already. Eagerly awaiting their arrival are student supporters in Hubs (Hosei University Buddy System), and together, these students enliven the G-Lounge.

On Koganei campus, HyFlex guidance was held for new international students, who not only received academic advice by professors, but also found out about student counseling services and learned about Japanese language courses.

International student exchange events have been scheduled for May on Tama Campus.

■Japanese Speech Contest on Koganei Campus

A Japanese speech contest is held every year in to facilitate international exchange with foreign residents in Koganei. In the past few years, international students on Koganei campus have also entered the contest. This year, a first year student from the Faculty of Bioscience and Applied Chemistry, Alfred Ngu Yok Fei, won the Jury Prize, and a former winner, TAI,Chieh-ming, who is also a second year student at the Graduate School of Science and Engineering, served as the M.C.

■Career Support for International Students

The Career Center has two programs to support international students in their job hunting, with information meetings held in May:

(1) Consortium Supporting International Students' Employment: SUCCESS

This program offers intensive seminars for job hunting, internship, Business Japanese, and so on.

<https://onl.la/wdjGAqk>

(2) Internship Program specific to Hosei University students

Focusing on internship in the IT industry, the program is open to students who are not proficient in Japanese.

Hosei Global Day 2022

It's scheduled for May 15 (Sunday), 13:00 – 16:00, at the Sotobori Building on Ichigaya Campus.

Student organizers have invited a guest speaker from World Vision Japan to talk about problems facing children in the world and support for them, and also offer some hints about developing a career in the field. There're also booths and workshop on international problems and SDGs and so on. So, mark your calendar!
