

# How to find a class I want to take?

## STEP 1 Access to WEB syllabus-home (<https://syllabus.hosei.ac.jp/web/show.php>)

The screenshot shows the top navigation area of the Hosei University WEB syllabus-home. It includes the university logo, a year selection menu (2018, 2019, 2020, 2021), a 'MYクラス' button, a '科目を検索' (Class Search) button, and a language switch menu (日本語 | English). A dashed blue box highlights the year selection, language switch, and search button areas, with numbered callouts 1, 2, and 3. Callout 1 points to the year selection, callout 2 points to the language switch, and callout 3 points to the search button. Below the navigation area, there are links for '教育開発支援機構HP', '科目ナンバリングについて', and 'シラバスWeb入稿システム'. A sidebar menu lists '学部・研究科一覧' and '学部・通信教育部' with sub-items like '法学部' and '文学部'.

- ① Choose the academic year which you prefer.
- ② Choose the language which you prefer
- ③ Click the “科目を検索 (Class Search)”

The next academic year's syllabus will be released in **March of the next academic year.**

## STEP 2 Use the “class search” system to find a class you want to take.

Class code	<input type="text"/>	Partial matching
Numbering code	<input type="text"/>	Partial matching
Faculty/Graduate school	Select <input type="button" value="v"/>	
Class title	<input type="text"/>	<input checked="" type="radio"/> Partial matching <input type="radio"/> Forward matching <input type="radio"/> Backward matching <input type="radio"/> Perfect matching
Class Title (sub)	<input type="text"/>	Partial matching
Previous Class title	<input type="text"/>	Partial matching
Instructor name	<input type="text"/>	<input checked="" type="radio"/> Partial matching <input type="radio"/> Forward matching <input type="radio"/> Backward matching <input type="radio"/> Perfect matching
Global Open Program	Select <input type="button" value="v"/>	
Open Program	Select <input type="button" value="v"/>	
Class taught by instructors with practical experience	Select <input type="button" value="v"/>	
Default language used in class	Select <input type="button" value="v"/>	
Keywords	<input type="text"/> <input type="text"/> <input type="text"/>	Partial matching
